12+	40+	$2.8M	6	20+	4
years in engineering and delivery leadership	engineers led across AI, cloud, QA and DevOps	revenue verticals built in FY 2024–25	SaaS products shipped to market	enterprise programs delivered	regions: USA, UK, Europe, South Africa

Ruturaj Maniyar turns technology investment into measurable business outcomes. A technology and delivery leader with more than twelve years of experience, he heads a 22+ member team across pre-sales, delivery and a Centre of Excellence at DXFactor Solutions, delivering agentic AI, digital health and IoT solutions for global clients. His foundation in carrier-grade engineering, combined with client-facing leadership across four regions, lets him align technical decisions with commercial goals.

CAREER

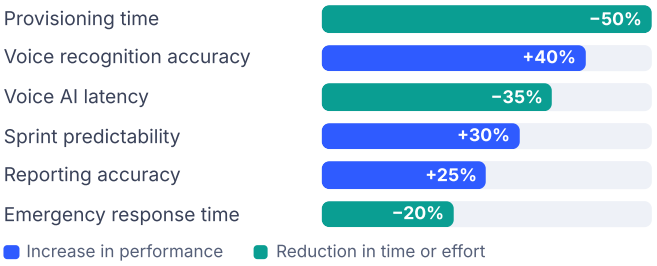

Director of Growth & Delivery — AUG 2026 – PRESENT
DXFactor Solutions
Leads 22+ across pre-sales, delivery and an AI Centre of Excellence; proof-of-concept-first delivery.

Delivery Lead & Technical PM — 2021 – 2026
Azilen Technologies
Led 40+ engineers; built $2.8M AI, Data and IIoT verticals; sprint predictability up 30%.

Technical Project Lead — 2017 – 2021
Ecosmob Technologies
Architected Hosted PBX at 99.95% uptime for 1,000+ users; provisioning time cut by 50%.

Software Engineer to Senior SE — 2014 – 2017
Flinnt, Ecosmob, MageMad, Panamax InfoTech
Hands-on foundation in product, telecom and web engineering.

MEASURED IMPACT

VALUE TO STAKEHOLDERS

- **Predictable delivery** through KPI-driven governance and risk modelling.
- **Revenue growth** via new verticals and pre-sales for multi-million INR AI initiatives.
- **De-risked investment** with proof-of-concept-first execution.
- **Applied AI in production:** LLMs, RAG and agentic workflows on AWS Bedrock.

SELECTED BUSINESS CASES

10K+	**AI Voice Command Platform**	Multilingual voice AI; accuracy up 40%, latency down 35%, 10K+ commands a day.
0→1	**Digital health platform**	Telehealth, clinic management and AI-assisted revenue cycle, from discovery to launch.
5K+	**AI wearable for first responders**	Real-time vitals at 5K+ events a minute; simulated response time cut by 20%.
−35%	**Autonomous runway inspection**	Robotics platform reducing inspection workload; reporting accuracy up 25%.

CORE EXPERTISE

Agentic AI & RAG · Delivery governance · Pre-sales · Microservices · Event-driven design · Multi-tenant SaaS · AWS · IoT edge · WebRTC & SIP · Healthcare & RCM · Telecom · Certified ScrumMaster

STRATEGIC PRIORITIES, 2026–2028

IN PROGRESS
AI Centre of Excellence programs

2027
E-book on AI delivery

2027
AI education for students via NGO

2027–28
Conference speaking and US expansion

Partnering on your next technology initiative

AI programs, delivery transformation and scaling engineering teams.
