RUTURAJ MANIYAR

Engineering Manager | Driving Rapid AI Transformation | Global Delivery Lead
ruturaj.maniyar@gmail.com | +91 90160 60824 | Linkedin.com/in/ruturajmaniyar
Gandhinagar, Gujarat, INDIA | Open to Relocate

PROFESSIONAL SUMMARY

Strategic Engineering Manager with 12+ years of experience building and scaling distributed systems, leading high-performance teams of 40+ engineers across Backend, GenAI, and DevOps. Architected enterprise-grade SaaS platforms, Digital HealthCare Solutions and Agentic AI Voice Agents supporting high-concurrency workloads, built to be GDPR-compliant. Proven ability to bridge technical architecture with business strategy, driving 30% improvements in delivery predictability. Extensive global delivery experience across USA, EU, UK, and South Africa.

12+ Years	**40+ Engineers**	**6 SaaS Products**
Engineering & Delivery Leadership	Led Across AI, IoT & DevOps Teams	Agentic AI, IoT, Telecom, Healthcare, HR Tech

CORE COMPETENCIES

Leadership: Engineering Leadership & Team Scaling, Cross-functional Collaboration, Agile Delivery & Governance, Stakeholder & Executive Communication, Pre-sales Consulting, Vendor Management, Rapid AI Transformation, Hiring & Mentorship, Performance Management.
Gen AI & Agentic AI: Generative AI, Large Language Models (LLMs), RAG Architectures, Agentic AI Workflows, Vector Databases, Prompt Engineering, Model Driven Development (MDD), Claude, Co-Pilot.
Distributed Systems: Microservices Architecture, Event-Driven Design, Domain Driven Design(DDD), High-Availability Systems, Multi-Tenant SaaS, Real-Time Communication (WebRTC/SIP), IoT Edge Computing.
Cloud & DevOps: AWS (Lambda, Bedrock, EC2, S3, SQS, SNS), Docker, CI/CD Pipelines (Jenkins).
Core Tech Stack: Python, Node.js, TypeScript JavaScript, PHP, Yii, Laravel, MySQL/PostgreSQL, VectorDB, DBT.

PROFESSIONAL EXPERIENCE

DXFactor Solutions Pvt Ltd. | Ahmedabad, INDIA
Director of Growth & Delivery | August 2026 – Present

- **Engineering Leadership & Governance**
  - Led cross-functional engineering team (22+ members) across Pre-sales, Delivery Team, CoE and delivering Agentic AI, Healthcare and Fitness solutions.
  - Building rapid Proof of Concepts (POCs) to validate customer use cases.

Azilen Technologies | Ahmedabad, INDIA.
Delivery Lead / Technical Project Manager | April 2021 – July 2026

- **Engineering Leadership & Governance**
  - Led cross-functional engineering team (40+ members) across backend, frontend, QA, and DevOps delivering IoT, Agentic AI, Data Engineering.
  - Improved sprint predictability by 30% via KPI-driven Agile governance and delivery risk modeling.
  - Partnered with leadership on hiring decisions and technical roadmap planning across multi-million INR AI initiatives & contributed to pre-sales solution architecture supporting AI-led enterprise expansions.
  - Conducted performance reviews, career development planning, and mentorship for engineering team members across AI, Healthcare & IoT programs.
- **Healthcare, Tele-Health, ASC / RCM**
  - Owned the end-to-end product direction and delivery of 0-to-1digital health platform, from clinical workflow discovery to shipped outcome.
  - Led the product revamp for an automated revenue cycle management (RCM) system, validating practical AI opportunities for clinical data collection, simplified integration and orchestrated agentic layer.
  - Directed the deployment of a comprehensive telehealth and clinic management module, focusing on seamless doctor-patient consultation experiences and Hub & Spoke models.
- **AI Voice Command Platform (GenAI + IoT)**
  - Architected microservice-based voice AI systems integrating ASR + LLM pipelines.
  - Improved multilingual recognition accuracy by 40%.
  - Reduced inference latency by 35% using event-driven async orchestration.
  - Scaled system to handle 10K+ daily command executions.

- **AI Wearable Platform (Defense / First Responders)**
  - Built real-time telemetry pipeline processing 5K+ vitals events/minute.
  - Reduced simulated emergency response time by 20% via predictive alert modeling.
  - Designed secure cloud-edge architecture ensuring high availability and failover.
- **Autonomous FoD Robotics Platform (Aviation)**
  - Led system architecture from edge devices to centralized FoD operation engine.
  - Reduced runway inspection workload by ~35% through automation.
  - Improved operational reporting accuracy by 25%.

Ecosmob Technologies | Ahmedabad, INDIA.
Technical Project Lead | June 2017 - March 2021

- **Engineering Leadership:** Led a specialized team of **15+ engineers** across telecom system architecture and scaling, overseeing the full SDLC.
- **SaaS Architecture:** Architected a multi-tenant **Hosted PBX (UCaaS) platform** supporting **1,000+ concurrent users**, maintaining **99.95% service uptime** across enterprise deployments.
- **High-Volume Switching:** Designed Class 4/5 SIP switching systems to handle high-volume call routing for international carriers.
- **Operational Impact:** Improved routing efficiency by **20%** through dial plan optimization and reduced client provisioning time by **50%** via automated CI/CD pipelines.

EARLIER EXPERIENCE

- **Concepts Iconnect (Flinnt) | Ahmedabad, INDIA.**
  Senior Software Engineer | Sept 2016 - June 2017

- **Ecosmob Technologies | Ahmedabad, INDIA.**
  Software Engineer | Oct 2015 - Sept 2016

- **MageMad Inc | Ahmedabad, INDIA.**
  Software Engineer | May 2015 - Sept 2015

- **Panamax InfoTech | Ahmedabad, INDIA.**
  Junior Software Engineer | July 2014 - May 2015

SELECTED PRODUCTS & PLATFORM OWNERSHIP

- **Rootle AI** – Voice AI Agent Platform
- **LoyaltyXpert** – Multi-tenant SaaS Customer Retention Platform
- **Hosted PBX** – Enterprise UCaaS Platform
- **Class 4/5 Switch -** Telecom Switching Solution

Delivered 6 SaaS products and 20+ enterprise programs across Agentic AI, IoT, Healthcare, Telecom and HR Tech domains.

GLOBAL ONSITE EXPERIENCE

- **Scandinavia (Sweden & Norway): 6 Months** | Led solution workshops and ERP integration initiatives for autonomous logistics platforms, ensuring alignment between onsite stakeholders and offshore engineering teams.
- **United Kingdom (London & Cambridge): 6 Months** | Managed enterprise UAT, stakeholder governance, and digital transformation programs for key UK clients.

EDUCATION & CERTIFICATION

- Bachelor of Engineering Computer Engineering (2011-2014) | Gujarat Technological University (GTU).
- Diploma in Computer Engineering (2008-2011) | Gujarat Technological University (GTU)
- Certified ScrumMaster (CSM)
